Price	\$25/month	\$140/month	\$340/month	\$700/month
Overview	Access to pre written material behind paywall. Your support also helps us help more animals by supporting our efforts to work with and educate animals in need.	<i>This is optimal for animals who have already been enjoying active training session or behavior coaching and want to step back and try it on their own. They still have access to continue logging data to analyze to make sure your animal continues to move in the right direction and the behavior is accurately maintained. Your KAS trainer will check in from time to time to see how things are going or make suggestions if they see any worrisome trends in your log. If you would rather we don't check your log we can do that too.</i>	<i>Looking for manners, obedience, trick training, puppy training, or enrichment guidance this is your stop. Receive customized training and enrichment sessions. Continue you & your animal education with KAS! The sky's the limit. Just don't stop teaching/learning.</i>	<i>If you are faced with an unruly animal that is displaying extreme behavior issues than you need a tailored systematic plan of attack. Your KAS trainer is here to coach you step by step through your personalized behavior modification program. This level is best for animals with anxiety, fear, aggression, or extreme reactivity/arousal related behaviors.</i>
